

Prime Minister's Office - PMO, Bhutan

27 January at 13:51 · 🌐

Update: In addition to the earlier announcement, we would like to inform all that the shops and business entities in the mega zones of north and south in Thimphu should close by 5pm, until further notice.

The national taskforce has allowed operations of shops and business entities in the two mega zones today (January 27, 2021) after the community screenings were complete and all results proved negative. But the reopening does not include night clubs, drayang and karaokes.

As an interim measure to discourage movement, an alternate odd and even numbers of vehicles and taxis is allowed within the two mega zones that have turned green. Only odd numbered vehicles are allowed to move today. More updates will be issued as the remaining two mega zones complete the testing in the coming days.
