Before air travel

- Passengers who recovered from Covid-19 must present a doctor-certified recovery confirmation whenever asked to.
- COVID-19 vaccinated passengers must present a vaccination certificate whenever asked to.
- Passengers who are not sure if they are required to go into isolation or passengers who are required to go into isolation and were refused boarding are advised to see further information.
- Passengers who are not Israeli citizens, people with Israeli vaccination or recovery certificates, and people with symptoms such as fever, shortness of breath, or loss of taste and smell will not be allowed to enter the airport premises.

Exemption to airport

- Entry to airport premises will be granted to passengers only (exceptions apply).
- Body temperature will be screened before entering airport premises.
- You must submit your boarding pass and clearance to airline staff.
- Passengers must practice hygiene, which includes washing hands with sanitizers.
- Passengers must stay at least 2 meters from people who are not same household members.
- Passengers must wear protective masks unless they are under 2 years or are babies.

Guidance before, during and after air travel

- Outbound passengers who are to leave no later than 72 hours must present original staff with negative COVID-19 PCR test results within 72 hours prior to the due time of departure. This does not apply to passengers who have Israeli vaccination or recovery certificates.
- Outbound passengers who are to leave no later than 72 hours must present original staff with negative COVID-19 PCR test results within 72 hours prior to the due time of departure. This does not apply to passengers who have Israeli vaccination or recovery certificates.
