**The Ministry of Health and the Ministry of Foreign Affairs are currently preparing an outline which will allow for shipping Pfizer vaccines to the Israeli consulate in New York and for vaccinating Israeli emissaries in the USA.**

According to the planned outline, vaccines will be shipped in about a week from Israel to New York and state emissaries in the USA (from the embassy in Washington, D.C. and from the 8 consulates general) will come to New York to be vaccinated.

500 Israeli emissaries from the various ministries and their family members will be vaccinated in the planned vaccination operation. 3 weeks later, an additional amount of vaccines will be sent to administer the second dose. This outline is part of the realization of the resolution by the Israeli government, at the initiative of Foreign Minister Gabi Ashkenazi, to vaccinate all Israeli emissaries throughout the world.

So far hundreds of emissaries from the Israeli embassies in Africa, Europe, Eurasia, India and the Middle East have arrived in Israel in task-specific vaccination flights. The New York outline will be studied and in case that it could be applied in additional areas according to the strictest medical requirements it will also be implemented in other parts of the world for the benefit of Israeli emissaries abroad.
