6. Restrictions on airport/ports for arrival

The Government of Japan (GOJ) announced the following measures (1) and (2) on March 5, 2020, and (3) on April 1, 2020. These measures will be in place for the time being.

- (1) The Government of Japan restricts arrival airports for passenger flights from China or Republic of Korea to Narita International Airport and Kansai International Airport only and requests the airlines concerned to conform this restriction. Based on the announcement of the GOJ on September 25, 2020, the incremental relaxation of the limitation on the number of arrival airports for passenger aircraft being implemented for the time being will be considered in light of the conditions including testing capacities upon arrival of each airport. The relaxation will be implemented once such conditions are met at each airport.**
- (2) The Government of Japan suspends passenger transportation departing from China or Republic of Korea by vessels and requests related companies to conform this suspension.**
- (3) Requesting airlines concerned to curb the number of arrival passengers to Japan by such measures as reducing the number of passenger arrival flights in order to ensure the appropriate implementation of quarantine measures. In order to securing smooth return to Japan of Japanese citizens or overseas travelers wishing to return, a proper care, including providing information and sending advisories, will be taken.**
- (4) The measures will be in place for the time being**

7. Entry of foreign nationals with special exceptional circumstances

Currently, all foreign nationals who wish to newly enter Japan need to apply for a visa except for those with re-entry permit. Please note that due to the impact caused by the COVID-19 pandemic, the visa approval procedure may take longer than usual. Your understanding and cooperation are greatly appreciated.

From 0:00 am (JST) December 2, 2021 to December 31, 2021, as emergency precautionary measure from a preventive perspective, entry of foreign nationals with other special exceptional circumstances was changed.

Foreign nationals who are entitled to enter Japan as those with special exceptional circumstances are required to apply for an appropriate visa at Embassies or Consulates or Consular Office of Japan (for Taiwan, Taipei Kaohsiung offices of Japan-Taiwan Exchange Association)(hereinafter referred as "Japan's overseas establishments") in your country/region.

Please see [Regarding the denial of landing permission to prevent the spread of COVID-19 \(multilingual version\) to be informed of the detailed cases of special exceptional circumstances](#) .

Please note that [the certificate of negative test result \(PDF\)](#) of pre-departure COVID-19 test conducted within 72 hours prior to departing from the country/region where travelers stay is required for foreign nationals to enter Japan, with special exceptional circumstances, in addition to obtaining a valid visa.
